Item 79 of the provisional agenda*
Reduction of military budgets

Objective information on military matters, including transparency of military expenditures

Report of the Secretary-General

Summary

The present report contains information received from Member States on their military expenditures for the latest fiscal year for which data are available. The Secretary-General has, to date, received reports from 75 Governments. The report also describes activities in which the Secretariat was engaged to enhance familiarity with and encourage greater participation in the United Nations standardized instrument for reporting military expenditures.

I. Introduction

1. The General Assembly, in operative paragraph 1 of its biennial resolution 60/44, inter alia, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and encouraged Member States that had no information to submit nil returns.

2. By operative paragraphs 5 (b), (f) and (g) of its resolution 60/44, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional/subregional symposiums and training seminars to explain the purpose of the United Nations system for the standardized reporting of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposiums and training seminars.

3. On 31 January 2006, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2006. The replies received are reproduced in section III below. Any additional replies received from Member States will be issued as addenda to the present report.

II. Action taken

4. Owing to the non-availability of extrabudgetary assistance, the Department for Disarmament Affairs was unable to organize seminars and/or workshops to enhance familiarity with and encourage greater participation in the United Nations standardized instrument for reporting military expenditures. Within available resources, however, the Department provided technical and substantive assistance in the preparation of a report, issued by the Economic Commission for Latin America and the Caribbean, entitled "Methodology for the comparison of military expenditures". The report was prepared as part of a larger project on strengthening democratic governance of the security sector in Latin America, which was coordinated by the Department of Political Affairs and funded by the United Nations Foundation/United Nations Fund for International Partnerships. Upon request, the Department for Disarmament Affairs also provided technical assistance to the Government of Nicaragua to facilitate progress on the transparency of military expenditures in Latin America and the Caribbean. In addition, the Department for Disarmament Affairs engaged in informal consultations with Member States, with a view to encouraging and facilitating their participation in the United Nations standardized instrument for reporting military expenditures.

III. Replies received from Governments

Explanatory note

5. To date, the Secretary-General has received reports from 75 Governments. In most cases, Governments have reported the figures in the tables presented below on the basis of the United Nations standardized instrument for reporting military expenditures. The information on military expenditures received has been computerized, with minor adjustments, to conform to standard statistical practices.

6. The originals of the replies from States are available through the Department for Disarmament Affairs. The annual reports and other relevant information on the standardized instrument for reporting military expenditures are available electronically on the Department's website at http://disarmament.un.org/cab/milex.html.
